

MANPOWER REPORT

UPDATE ON THE GLOBAL SUPPLY AND DEMAND FOR SEAFARERS

UK ~~£142~~ £99 per copy

BIMCO AND ICS PUBLISH THE MANPOWER REPORT IN MAY 2016

The Manpower Report is a comprehensive report on the global manpower situation in the shipping industry prepared by BIMCO and ICS.

The 2015 report follows the methodology utilised for previous BIMCO and ICS reports, however some changes have been effected to take into account feedback from the 2010 report and to ensure that it remains a comprehensive source of information on maritime manpower.

The report aims to provide an estimate of:

- The balance between the global supply of qualified and competent seafarers available for service on the ships trading internationally, and the industry's demand for seafarers to operate the world merchant fleet;
- Details about the composition of the seafarers that operate the world merchant fleet, including their nationalities, rank/role, age profiles and gender; and
- The anticipated future growth of the world merchant fleet over the next ten years and its possible impacts on the global manpower supply and demand situation.
